## SUMMARY

---

I am a passionate MERN Stack Developer with expertise in HTML, CSS, SASS, JavaScript, React, MUI, Framer Motion, Bootstrap, Firebase, Tailwind CSS, Git, and GitHub. With over 8 months of hands-on experience, I have successfully delivered engaging and responsive web applications. Additionally, I possess extensive skills in Adobe Photoshop and Adobe Illustrator for UI/UX design. As a Cyber Security major at FAST NUCES, I have also gained knowledge in MySQL. Currently, I am expanding my expertise in backend technologies such as Node.js, Express.js, and MongoDB to create comprehensive MERN stack projects.

## WORK EXPERIENCE

---

### Deputy of Web Development Team - Developers' Day - ACM NUCES Feb 2024 - April 2024

- Developed Developers Day Website: Created the website using React.js and Tailwind CSS, ensuring a modern, responsive design and efficient code by adhering to best software development practices.
- Collaborated with Senior Developers: Worked closely with senior team members to update the website and develop new features, enhancing its functionality and user experience.
- Designed CV Portal Frontend: Independently built the frontend for a CV portal where users can upload their CVs to various companies. Integrated a database to collect CVs for different multinational companies.

### Front end Developer - Syslab.ai

Nov 2023 - Jan 2024

- Built and Maintained Product Websites: Developed and managed websites for various products, ensuring high performance and user-friendly interfaces.
- Created Main Website and Blog Application: Designed and implemented the main company website and a blog application with Firebase DB integration for dynamic content management.
- Graphic Design Expertise: Served as a graphic designer, creating complex posters and videos to support marketing and promotional efforts.

## PROJECTS

---

### ACM Dev Day Website

[Link of Website](#)

Developed a multi-page dynamic website for Developer Day, FAST NUCES's flagship event, using React and Tailwind CSS for the frontend. Integrated the backend with the MERN stack to ensure a seamless and efficient user experience.

### "TaskForge: MERN-powered Task Management System

[Link of Website](#)

In this application, users can efficiently manage their daily tasks with a robust CRUD (Create, Read, Update, Delete) operation system. Additionally, it offers secure authentication features including login, sign up, and OTP verification, ensuring user data safety in the database. With both server and client-side rendering, TaskForge provides a seamless experience for organizing and tracking tasks.

# EDUCATION

---

2023 - present  
Bachelor in Computer Science (Cyber Security) at **FAST NUCES** (CGPA: 3.40/4.0)

2021 - 2023  
Intermediate in Pre Engineering at **Aga Khan Higher Secondary School, Karachi** (Grade: A)

2010 - 2021  
Matriculation in Bio Science at **Aga Khan School, Garden** (Grade: A+)

# HONORS AND AWARDS

---

21st September 2023  
**Bronze Medalist** at **American Mathematics Olympiad** (Certificate No: A0060131)

21st September 2023  
**Global Finalist** at **International Mathematics Olympiad (IMO)**

November 25 2023  
**Award of Appreciation** by **AKHSS** for **hitting global position** at **AMO**

July 2021  
**Academic Achievement Award** by **AKSG** for securing **85.3 percent** in **AKUEB**

# SKILLS

---

**Technical Skills:**

- |              |                |                  |                   |
|--------------|----------------|------------------|-------------------|
| • HTML5      | • Node JS      | • Material UI    | • Object Oriented |
| • CSS3       | • Express JS   | • Git and GitHub | Programming       |
| • JavaScript | • Mongo DB     | • C Programming  | • Bootstrap       |
| - • React JS | • Tailwind CSS | • C++            | • Typescript      |
